

PROJECT

Jané Mateu Foundation and Enriqueta Villavecchia Foundation: A Shared Commitment to Health, Education, and Social Well-being

At Jané Mateu Foundation, we are proud to collaborate with the Enriqueta Villavecchia Foundation to improve the quality of life of children with serious illnesses and provide comprehensive support to their families. Through a collaboration agreement spanning 2024, 2025, and 2026, we will sponsor the new “Schools, Professionals, and Library Space,” which will be named the Jané Mateu Foundation Room and inaugurated in the first quarter of 2026.

This space aims to provide an appropriate educational and professional environment for children and families facing complex situations, as well as to promote ongoing training for professionals involved in pediatric care. The donation, made progressively over three years, reflects Jané Mateu Foundation’s long-term commitment to education, health, and social well-being.

This project is part of a broader set of initiatives supported by Jané Mateu Foundation to transform the pediatric care model for advanced illnesses. It is also aligned with the mission of the Enriqueta Villavecchia Foundation, dedicated to caring for children with cancer and serious diseases, offering hope and support to their families.

Collaboration to Build a Better Future

The collaboration with Enriqueta Villavecchia Foundation goes beyond creating this educational space; it also contributes to the development of transformative projects that positively impact the lives of those who need it most. We are convinced that through this alliance, an environment of hope, solidarity, and progress in pediatric care can be fostered.

The Jané Mateu Foundation Room will be an essential part of this process, becoming a benchmark for training, innovation, and specialized support in child health. With this agreement, Jané Mateu Foundation reaffirms its commitment to social well-being, working to improve the quality of life for the most vulnerable children and families.
